VRANKEN-POMMERY MONOPOLE

Camargue & Provence, France

‘Don’t force nature: make the most of what nature does best’.

Driven by the spirit of conquest and leadership, Paul-François Vranken founded the Group in 1976. As Europe’s leading winegrower, we have more than 2,500 ha of our own vineyards as well as a portfolio of international brands that are distributed in more than 87 countries.

The Vranken-Pommery Monopole group is currently the no. 1 producer of Rosés worldwide and no. 2 for Champagne. Every one of our brands originates from a unique terroir that embodies the quintessence of our vineyards.

Since the company was founded by Paul-François Vranken in 1976, Vranken-Pommery Monopole has continuously developed our Champagne houses in complementary harmony with the estates we have acquired over the years. Today, ‘Heritage and Creation’ go hand in hand.
